Hi Kira,

Oversight on my part to not include Leslie! Thanks,

Liza

Hi Kira,

I hope you are back from your NY trip and doing well. To respond to your items you asked about I can offer up the following:

1. Leslie Martinez is the Technical Lead from the EMCX. Ann Wright, HQ Office of Counsel continues to be the POC for the FFA negotiations.
2. On the second item, I let Calvin know when we talked briefly the other day that while I don't have a plan to share right now for communications outside the FFA negotiations, we are continuing to discuss internally how we will best communicate outside the FFA negotiations. I know there is some discussion about dates for a meeting with Calvin and Beth Coffey soon as well.

Liza

Hi Kira,

Just letting you know I am checking on these items. We're still in the mode where these items aren't at District discretion. We have a brief internal routine meeting on Friday morning where I will bring both topics up if I can't get clarity before then. I also have a quick check in call with Calvin tomorrow. Hope you are doing well!

Liza

Subject: [Non-DoD Source] Action Items from USACE/EPA Bradford meeting

Hi Liza

There are a few action items for the USACE coming out of our Bradford coordination meeting I wanted to check on.

1. USACE to provide EPA with a technical point of contact for site management plan/technical project planning discussions. We were told this would likely be someone from the HTRW-CX.
2. USACE to provide EPA with a draft project [partnering] structure that would outline staff and management roles and responsibilities and how we would work together to elevate and resolve issues.

Can you let me know status of these? Thanks I am in New York this week on work travel but still checking email. Kira
